

NOTICE TO MEDICARE PART D PLAN SPONSORS. If your company's proposed plan of operation will be to act solely as a Medicare Part D prescription drug plan sponsor, then it should not apply to the California Department of Insurance for a certificate of authority. It should apply to the California Department of Managed Health Care, for a license as a health care service plan, pursuant to California Health and Safety Code sections 1340 et seq. The two California departments have determined that the Department of Managed Health Care has licensing jurisdiction over applicants that will offer exclusively prescription drug coverage under Medicare Part D. Contact information for that Department is: Department of Managed Health Care, Division of Licensing, 980 9th St., Suite 500, Sacramento, CA 95814; Telephone number (916) 324-9046; www.dmhc.ca.gov.
